The screenshot displays the Pursuit Logistics web application interface. On the left is a sidebar menu with categories like Services, User Management, Account Management, and Information Entered. The main content area shows a table of shipping quotes for LTL (Less Than Truckload) shipments. The table includes columns for Carrier, LTL, Guaranteed LTL, Carrier Performance, Carrier Liability, and Save Quote. Several carriers are listed, including ACT, UPS, New Century, FedEx, YRC, and R-L Carriers. Each quote entry shows the amount, transit days, delivery date, and carrier performance metrics. A 'Deliver on' calendar icon is visible for some quotes, indicating the delivery date.
